PROFILE

I have recently graduated from **Le Wagon**, London's **Ruby on Rails Full-Stack coding bootcamp**. I have previous experience in **graphic design** and **e-commerce** and I am eager to find a position which will allow me to develop my programming skills further. I am equally confident working on both clean, engaging design on the **front-end** and the foundations of the **back-end** and hope to work on projects where I can **contribute creatively** to the goals of the team.
